

Is Your Salesforce Org Running Optimally?

Salesforce Optimization Sprint:
30 Days to a Cleaner, Faster,
Smarter Org

Introduction

You've invested in Salesforce. Your team logs in every day. But reports take forever to build, duplicate records multiply like rabbits, and nobody's certain what's up-to-date.

The result? Lost time. Missed opportunities. And a CRM that feels more like a roadblock than enabler. Sounds familiar? Then your Salesforce org needs strategic optimization.

	Before Optimization	After Optimization
Duplicate Records	37,261	21
Avg. Report Loading Time	12 seconds	2.3 seconds
No. of Disconnected Solutions	7	0

What We Do

We go beyond just cleaning data—this is a full-blown optimization of your Salesforce org.

Here's what it entails:

Data Clean-Up & De-Duplication

- Run advanced duplicate rules
- Standardize naming conventions
- Archive dated or obsolete records you don't need

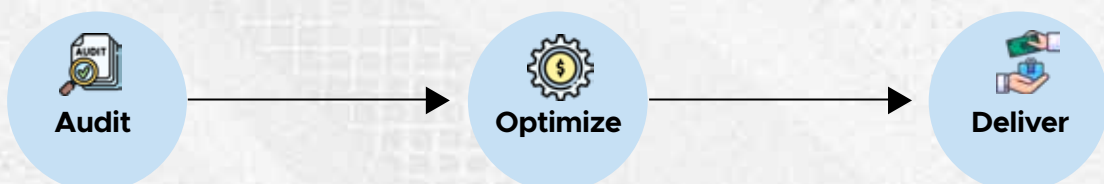

Automation Tune-Up

- Streamline Flows & Workflows
- Kill redundant triggers
- Optimize assignment rules for speed

Dashboard & Reporting Overhaul

- Build KPI dashboards your teams will actually use
- Fix broken reports & filters
- Add drill-downs so you get answers quickly

Quick Glance at the 30-Day Journey

Week 1

Discovery & Audit

- Kick-off meeting
- Run Salesforce Optimizer and org health checks
- Review current data structure, automation, and integrations
- Identify unused fields, objects, and reports

Week 2

Data & Org Clean-Up

- Remove duplicate, outdated, and irrelevant records
- Standardize naming conventions and formats
- Archive unused reports, dashboards, and workflows
- Map opportunities for automation

Week 3

Optimization & Automation

- Streamline page layouts and Lightning pages
- Consolidate and optimize Flows, validation rules, and processes
- Fine-tune integrations for real-time sync
- Add quick-win dashboards for faster insights

Week 4

Testing, Training, & Handover

- User testing to ensure smooth workflows
- Fix any performance or adoption issues
- Conduct admin & user training session
- Deliver final "Clean Org Health Report" & optimization roadmap

Client Speak

Before Envision stepped in, our Salesforce felt like a problem than a solution. After the cleanup, it's like we're running on an entirely new system. Efficiency is up, errors are down, and we can finally focus on growth instead of fixing issues.
